

MIDCOAST SENIOR COLLEGE PRESENTS

Maine's Transforming Economy and Changing Demographics: Building a Better Future

Maine's economy is in the midst of a transformation that includes new businesses in areas such as biotechnology, aquaculture, renewable energy, food processing, brewing and distilling. These economic developments are reshaping the nature of work, our institutions and the communities in which we live. This series begins with an overview of Maine's Transforming Economy by John Dorrer, former Acting Commissioner of the Maine Department of Labor.
